

Installing and using the SmartIPTV App

For Samsung Smart TVs

Disclaimer: The application itself does not contain any channels. You will need to subscribe to a IPTV provider

Download the App

You can download the app in the official Samsung Apps Store (Video category) in your country.

If there is no app in your country, try signing up in any other country's Smart TV Services and download the app from there by using the following guides, there is no need to activate the app again:

- 2012 E/ES Series TVs <http://nozonetv.com/samsung-smart-tv-vpn-change-reigon.html>
- 2013 F Series TVs, https://siptv.eu/howto/sammy/country/f_series.html (Step 14: Press remote buttons >> 2 8 9 << (Fast Forward 2 8 9 Rewind))
- 2014 H/HU Series TVs, https://siptv.eu/howto/sammy/country/h_series.html
- 2015 J/JU/JS Series TVs, https://siptv.eu/howto/sammy/country/j_series.html
- 2016 K/KU/KS Series TVs <https://siptv.eu/howto/sammy/country/index.html>
- 2017 M/MU/Q Series TVs <https://siptv.eu/howto/sammy/country/index.html>

Important The application works only on TVs starting from E series. It doesn't work on C or D series TVs

There might be many IPTV apps in the Samsung Apps Store. You must download this one

The SmartIPTV app comes as a trial of 7 days as default. You will then need to buy the app at the cost of £4.99 (or the correct price at the time) in order to activate it by following the instructions below.

Or if you prefer we can also activate it for you for the same price.

Activating the App

The SmartIPTV app needs to be activated before 7 days otherwise you will lose the connection to the IPTV subscription.

To buy and activate the app visit <https://siptv.eu/activation/> and follow the instructions. You will see various options to pay, but to avoid delays we recommend to pay by Card or PayPal.

Note: Activating and paying for the app does not give you any IPTV channels. You still require an IPTV subscription.

Payments by Braintree
